Query: How does it happen when two young gentlemen return from a ride that one of them should have a button-hole bouquet fastened to the back of his coat? Guess that party of three young ladies can solve the mystery!

To-day the Red Ribbon Club of District No. 6 of Texas, Kalamazoo county, held a picnic at Thomas Bix's grove. The Oshkemo, Texas, Portage and other clubs have been invited to participate, and speech-making, music and a good time generally is expected.

Mrs. A. M. Kelsey, of Aurora, N. Y., spent last Sunday in this village at the residence of Dr. Dunning. She is a fine elocutionist, and there is talk of engaging her to favor our citizens with a reading, upon her return from Three Rivers.

That was a good joke the Press got off on Dell Allen, last week. Dell says he wouldn't for all the world have it reach a certain correspondent. If it should, we imagine he would have all he could attend to in rendering a satisfactory explanation.

The club social on Monday evening was the most enjoyable one we have had the pleasure of attending. Mr. White, a musician, favored the company with several choice pieces of music. The reading and recitations were good and the social feature of the entertainment added not a little to the enjoyment.

On Monday Mr. O. D. Haddell went to Hartford for a week's visit, after which he will start for the South, where he intends to remain several months. During his sojourn in this place we have found him a pleasant and courteous neighbor, and although our papers were rivals in every sense of the word, we got along admirably under the same roof, and had it not been for the fire would doubtless have still been there. We trust Mr. Haddell will have a pleasant trip, and if he again engages in the newspaper business will find it as profitable as his former ventures in that direction have been.

"The Bishop College Aid Society," composed of the members of the Bible and Prayer class, of St. Mark's will give an entertainment consisting of a choral, music, fun, etc., at the residence of Mrs. Dr. Bitley on Friday evening, August 9th, "Young folks" all turn out and have a gay time.

We had intended to publish in this issue an article concerning the trial of one of the Matteson-Morris mortgage cases, growing out of the alleged forged mortgages. We learn that Morris' counsel is confident of a decision favorable to him in Morris. Owing to an accident the article is deferred.

At a meeting of the White Ribbon Club, on Friday evening, the following officers were elected for the ensuing quarter: President, Mrs. G. P. Linderman; First Vice President, Mrs. W. R. Strine; Second, Miss Edna Kidd; Third, Miss Cynthia Burdick; Treasurer, Mrs. Chandler Richards; Recording Secretary, Miss Gattie Coy; Asst. Sec., Miss Ada Randall; Cor. Sec., Miss Fannie VanKirk.

An old ladies' tea party was held at the residence of Mrs. Harmon Ostrander, on Wednesday last, which was a very enjoyable occasion for those who participated in it. The following are the names and ages of the ladies in whose honor the party was made: Mrs. Warner, aged ninety-five years; Mrs. Harwick, eighty-six years; Mrs. Harris, eighty-five years; Mrs. Morrison, eighty-one years; Mrs. Churchill, seventy-four years.

Coming Events: Literary entertainment at Mrs. Bitley's this evening.—Episcopal social at the residence of C. E. Chappell, on Monday evening.—Peach social under the auspices of Disciple Society in Town Hall grove, on Tuesday evening.—On Wednesday evening the Free Will Baptist Society held a peach and ice cream social in the same grove.—On Wednesday, picnic of the Methodist Sunday school at Four Mile Lake. Fare for round trip on the Narrow Gauge; adults, 25 cents; children, 15 cents.—Freemans' picnic at Four Mile Lake next Friday, the 17th inst.

A man by the name of Truedell, recently a furniture dealer in South Bend, Indiana, was arrested here last Friday on suspicion of stealing a horse, and has been held till Tuesday. Photographs and description coming to hand show that Truedell does not resemble the alleged thief in the least. Engle & Hinckley who caused the arrest released him last Tuesday, and now Truedell proposes to make it hot for them on a charge of false imprisonment.

On Saturday last, Under Sheriff McCabe arrested Arthur Fox for assault and battery upon his step-father, Foster Johnson. He was arraigned before Esquire Knowles and the case adjourned until Tuesday, when a judgment of fifteen dollars and costs (amounting in all to twenty-seven dollars) was found against him. A friend paid the sum, thus preventing him from being committed to jail. Johnson is an old man, and was quite badly hurt by Fox who assaulted him with a rail. Both parties to the suit reside in Almena.

On Wednesday last the team belonging to Mr. Wells Gray, ran away again and smashed things generally. Mr. Gray had taken a load of rails down on the bank of Briggs' pond, to repair a fence, and was just in the act of unloading them when the team started, throwing the old gentlemen from the wagon, injuring him quite severely. The team turned north and ran against a rail fence, going through it, and getting promiscuously tangled up there-with. Both horses were thrown down and one was badly hurt. Fortunately Elvin Howland was present and assisted Mr. Gray to his home.

On Wednesday morning last Mr. Henry Pugsley, living five miles west of this village on the Monroe road, met with a very narrow escape from accidental death. Mr. Saxton was engaged in putting down a new well for him and had sunk it to the depth of over fifty feet, and had commenced to wall it up with well brick. When Mr. Saxton went down into the well on Wednesday morning he noticed that the brick had settled, and notified Mr. Pugsley of the fact and requested him to come down and see what he thought of it. Pugsley was let down by the man at the windlass who then went a short distance for something he wanted. While the man was gone, a good sized hog came along and tumbled down the well, striking Mr. Pugsley, who stood on a platform some six feet above the bottom of the well. His right arm was broken in two places, and he was injured internally. Mr. Saxton who was some six feet below escaped unharm. The hog was killed, a bee-handle passing entirely through him.

### FROM MATTAWAY.

#### EDITOR TRUE NORTHERNER:

Last Friday evening, July 3d, the people of Mattaway were favored with a superior reading exercise at the Congregational church, by Mrs. A. M. Kelsey, of Aurora, N. Y., formerly a resident of this place. After an absence of several years, during which time she has been engaged in successfully teaching elocution, and also employed in the noble but nervous work of instructing the deaf and dumb to talk in the noted school of Aurora, on the east shore of Cayuga Lake, she has returned to visit for a few days her old home and many friends in Mattaway. She kindly consented to give us an evening's entertainment in reading and recitation, provided we would accept the proceeds for the benefit of the Congregational church here, of which she was formerly a faithful and esteemed member. The offer was gratefully accepted, and the exercises were of unusual interest from the beginning to the close. The choir commenced the exercises by singing some pieces selected for the occasion, and then followed the reading and recitations by Mrs. Kelsey. Her selections were of the best character, both serious and amusing, but all instructive and deeply interesting, and her rendering of them, allowing us to judge, evinced a high degree of culture and proficiency in the work and department of instruction in which she is engaged, and we think she fully merits the honor she receives where she is employed as a teacher and widely known. Her voice is under perfect control, every syllable she utters is distinctly and properly articulated, absorbed as she is in the subject, her intonations and emphasis are natural and correct and bring out the meaning of the author fully. Her reading of the quaint poem entitled "Amity," "The Falling of the Pemberton Mill," the temperance piece, "Am I my Brother's Keeper?" and several others, were exceptionally good, and left, we hope, and believe, a lasting influence for good with every hearer. We desire to express our thanks to Mrs. Kelsey for the double favor of the entertainment and donation.

### BLOOMINGDALE LOCALS.

#### FROM OUR OWN CORRESPONDENT.

Little Leo, daughter of Mr. and Mrs. T. Locher, passed on to the summer land, last Friday.

A. R. Babington caught in a revolving tumbling rod last Saturday, while threshing at T. Hodgson's, and had his right arm broken.

Rev. B. L. Prescott, of Goble, preached to the Baptist congregation last Sabbath from "Be ye not weary in well-doing." It was an able and earnest effort.

Hon. H. G. Wells, S. S. Cobb and L. Kendall, prominent citizens of Kalamazoo, were in town recently looking after village property. There's fame for you.

Wheat is averaging about fifteen bushels per acre. There are in this township over one thousand acres more than last year. Corn is looking splendid, and there is no end to the potato crop.

Good butter is bringing here thirteen cents per pound, and eggs ten cents per dozen. Our merchants are paying as much for produce as towns of greater pretensions, and selling goods as cheap.

Apple and peach buyers begin to swarm.—Good fall apples sell readily at forty cents per bushel.

A disgraceful "mill" came off last week between a Mrs. Camfield and Mrs. Bramley, living north of Pine Grove. Mrs. C. was the aggressor and clubbed Mrs. B. quite freely, resulting in serious injury. It is reported that Mrs. B. has died of her injuries.

On the return of the "poor" of B. castle and her lord from their recent tour, numerous friends gave them a reception, in which the weird and solemn cow-bell played an important part. And the "empress dowager" of the aforesaid castle made a speech!

The filling up of our village frog-pond was a bigger job than the Board of Health thought. A close calculation, taking the present status of the work as a basis, leads to the conclusion that about twenty-eight years hence this stupendous enterprise will be finished. It may not be in the present board's time—they may be gone where bull-frogs don't sing round-days, and where odors, to which decaying macaroni is but faintly comparable, don't fill all the summer air—but then, there is the genius which conceived the stopping up of stink-holes with such stink-conducting material as edgings and saw-dust, and there is the energy which caused a load per month of this material to be dumped into said stink-hole. Let us pray.

Exit M. C. Smith. He went out from among this people Sabbath afternoon with the marks of an outraged father upon him that he should carry to the grave. Smith's crime is: himself a married man, he invaded the sanctity of another's home, and brought disgrace thereon by his lecherous wiles. In the minds of all right thinking people there is no condoning such an offence. It is a crime against society that the worst punishment can hardly expiate, and the villain who dares to engage in it should find no green spot in this world whereon to tuck his conscience into forgetfulness. Smith goes to Hartford. We are sorry to pass forward to his citizenship so precious a scamp as he has proven himself to be here, but we rejoice that his "lines have been cast" where reform is possible, and where evil-doers are summarily dealt with.

John Decker had a narrow escape from death last Monday. A vicious bull, owned by A. Melvin, disputed John's right to the highway, and went for him as bulls know how to go. Before the horse charge, all there was of Mr. D. went down, but he had the presence of mind to clasp the animal around the neck with both arms, and by sheer strength held him, until a shot from a gun in the hands of brave young James Kingsley put an end to the struggle. A lively shaking up and slight wounds on the breast, are all the injuries Mr. D. sustained. He says the sweetest steak he ever ate that critter made.

Mrs. Eliza B. Shoemaker, the aged mother of Mr. McArthur, died last Sabbath after a long and painful illness. This sad event was not unexpected—the uncertainties of her feeble health and diseases incident to old age had prepared her friends for it—and yet, there was genuine sorrow in many a Bloomingdale home, when the news spread along that gentle and dear heart had been gathered to her fathers. Mrs. S. came to this State in an early day, and with her husband located in Kent county when there were but two houses in Grand Rapids. She has resided here some three years, and by her kindly ways won the respect and affection of all who know her. She was a faithful friend, a quiet, unobtrusive nature, a fond mother, and a simple, earnest Christian. Her remains were taken to Grand Rapids for interment by the side of her husband, who had preceded her many years through the "valley and shadow of death."

The following is the list of Jurors summoned to be in attendance on the Circuit Court August 21st, 1877, at 10 o'clock in the forenoon: B. F. Stevens, Pine Grove; Samuel Odel, Almena; Daniel Spicer, Antwerp; R. V. Munger, Porter; S. Bush, Bloomingdale; Wm. D. Land, Waverly; I. W. Van Fossen, Paw Paw; Silas M. Rawson, Decatur; Ira Orton, Arlington; Charles Stewart, Hamilton; Clark G. Russell, Bangor; Jesse Thomas, Hartford; Oscar Adams, Keeler; E. M. Cook, South Haven; James L. Prescott, Pine Grove; Joseph Ford, Antwerp; Enos Sheldon, Almena; James W. Burlington, Porter; J. H. Roscoe, Bloomingdale; T. W. Vallee, Waverly; N. P. Conger, Paw Paw; Alfred Hight, Decatur; John Stanley, Arlington; Reason Comly, Hamilton.

Lost.—In the village of Paw Paw a small brindle dog, with a white spot on his breast, answers to the name of Cap. Any information in regard to his whereabouts will please be left at this office, or at his home in Almena. WOODFORD DAME, Almena, Mich. August 8, 1877.

Kalamazoo, August 8.—The Oshkemo post-office was burglarized last night and \$10 taken. The house of O. Storr at Kalamazoo was also entered last night and \$150 worth of silverware taken, but the burglars were scared and dropped all their booty. The man arrested for stealing wheat proves to be the man who burglarized the new Marshall hotel a short time ago.

Mrs. Adele Hazlett, the well-known Michigan lecturer, is now engaged in organizing lodges of the "Sacred Temple," a secret society, for women, the object being the intellectual and moral improvement of women. Its membership is confined to women, above 18 years, who are elected by secret ballot. The plan of organization is similar to that of masonry and Odd-fellowship. A number of these temples are now working in Michigan.

A. S. Dyckman, member of the state board of agriculture and the most extensive peach-grower on the western shore, has a young peach-eater at his home in South Haven, but the Paw Paw True Northerner don't say whether it is a boy or a girl.—Lansing Republican.

Last week we announced that a "masculine" peach-eater had arrived at A. S. Dyckman's, but, lest the Republican editor should again mistake our meaning, we will inform him that the "peach-eater" is a boy.

Died.—In Bangor, July 18, Mrs. Oscar Kinney, aged 22 years.—In Hartford, July 30, Mrs. Daniel Landon, aged 60 years.—In Lawrence July 31, Ephraim Taylor aged 67 years. Deceased was one of the pioneers of the county, having settled here in 1838.

The ladies of the Episcopal church at Alpena have opened and are running an ice cream saloon, the profits going to the aid of the church. They recently gave an entertainment from which they realized \$90.

The last of the machinery for the Furnace arrived Wednesday, and they are now filling up the stack. They expect to make the first run again by Monday.—Bangor Reflector.

The Michigan farmers who have anything to croak about this year are few and far between. God has given them bountiful crops and magnificent weather, in which to gather fruits and grains of the earth.—Detroit News.

The Undertakers War.—Location is nothing, but time is money. A good quantity of pluck is needed for the undertaking of friend "Cy," but if he had as much pluck to earn his bread by the sweat of his brow and not keep quite so many hangers-on his bread and butter would last a much longer time. Mr. A. H. See, & Co. have a very fine line of undertaker's goods.

### "ROUND ABOUT."

Hiram Smith, of Flint, is filling an order for 100,000 feet of oak flooring for Paris, France.

During the absence of Mr. Sanford, of the Lansing Journal, in the quest of health, his wife will manage that newspaper.

Mrs. Lora S. Kinneman, daughter of Senator Christianity, died at Toledo, on the 2d, and her funeral was held at Monroe on Friday.

A club of Genesee county farmers held on to their wool until the market closed, then took it out of the county to sell, and got less than the market price for it.

Vermont's sons and daughters now residents of Michigan will celebrate the anniversary of the battle of Bennington, at Grand Rapids on the 16th.

Last week it is said there were more tramps hanging around the railroad tracks here than ever seen at any time before. Some nights there would be as many as twenty-five or thirty.—Niles Democrat.

A Williamson family thought their well water tasted a little curious, and so cleaned the well out the other day. They only found one cat, two dogs and six hens in a partly decomposed state. For some time they had thought it was mineral water they were using.

Eighteen women clerks from the Treasury Department are in New York to count 176,000,000 postage stamps of different denominations, reported to be in the vaults of the postage-stamp agency in that city.

From the published proceedings of the late meeting of the "State Millers Association," held in the city of Detroit, on Wednesday, the 1st of this month, we make the following extract, believing it to be of considerable interest to the readers of this Journal:

ANALYSES OF WHEAT SAMPLES.  
The Secretary presented the following analyses of six samples of wheat, giving their representative consistencies and values for flour, as made by Prof. Albert B. Prescott, of Michigan University:

First—Total nitrogen (in the grain dried at 212 degrees Fahrenheit).  
Second the albumenoids (the flesh forming constituents) by calculation from the nitrogen.  
Third—The starch and its derivatives (the force-giving constituents) in the dried grain.  
Fourth—The water obtained at 212 degrees Fahrenheit.

WHEAT.	Total nitrogen.	Albumenoids, "flesh forming."	Starch and its derivatives, "force giving."	Water obtained at 212 degrees F.
No. 1. Gold Medal.	2.067	13.33	82.00	13.55
No. 2. Crescent Mills.	1.713	11.05	83.00	10.76
No. 3. Diehl.	1.789	11.54	84.00	12.35
No. 4. Tappanhook.	1.514	10.23	81.00	11.70
No. 5. Clawson.	1.680	10.93	79.00	11.35
No. 6. Treadwell.	2.400	15.48	79.00	10.74

Concerning the above analyses, Mr. Hayden presented the following resolution, which was adopted:

Resolved, That by the chemical analyses of several varieties of wheat presented to this convention, it appears that the different samples for the manufacture of flour stands as follows: First, Tappanhook; second, Treadwell; third, Gold Medal; fourth, Diehl; fifth, Clawson; and therefore we recommend the sowing of these varieties in the order in which they are named above.

As a further expression of the meeting in regard to the variety of wheat known as the Clawson, the following resolution, presented by W. W. Hatch, was unanimously adopted:

Resolved, That it is the sense of this meeting which is now raised in this state for making flour.

In the Toledo market the Clawson is rated No. 3 red wheat.

A committee consisting of J. D. Hayes, D. B. Merrill and W. W. Hatch were appointed to confer with the Detroit Board of Trade, urging that they make a separate grade of the Clawson wheat.

On motion of Mr. Hatch the following resolution was adopted:

Resolved, That this Convention recommend to the farmers of Michigan the necessity of letting their wheat remain in the straw until it has gone through the sweating process, as it would greatly add to the color and they would find the wheat would weigh heavier and it would make a much heavier and stronger flour.

The highest honors in the Rogers high school at Newport, R. I., have just been taken by a colored girl, Josephine Amelia Silona. She graduated at the head of her class, received the gold medal awarded with the first scholarship, and pronounced the valedictory. What is more remarkable, she took her last two years' studies in one year. She excels in Latin, Greek, French and German. Her mother is a cook, and she herself earns her own living when not at school. She now goes to college.

AN HONEST MEDICINE.—Of all medicines calculated to cure affections of the throat, chest and lungs, we know of none we can begin to recommend as highly as Dr. King's New Discovery for Consumption, Croup, Colds, Asthma, Bronchitis, Hoarseness, Tickling in the Throat, loss of voice &c. It does positively cure, and that where everything else has failed. No medicine can show one-half so many positive and permanent cures as have already been wrought by this wonderful remedy. For the Asthma and Bronchitis it is a perfect specific, curing the worst cases in the shortest time possible. We would say by all means give it a trial. Three doses will cure the worst case. Trial bottle free. Regular size \$1.00. For sale by GEO. W. LONGWELL & CO.

NEWBURN, O., June, 1875.  
Lawson Chemical Co., Cleveland, O.—Some two years ago I was suffering severely with Nervous Rheumatism in my feet, which caused great heat. After using four bottles of your "Curative," as an external remedy, I am cured. I can cheerfully recommend the "Curative" for swollen feet, chilblains, &c. E. SHEPARD.

It is a fact well established by unquestionable testimony that Hall's Hair Renewer restores, cleanses, brightens invigorates and restores to its original color and lustre, faded or discolored hair, cheaply, quickly and surely. The poorest people prefer to buy it and use it, rather than to proclaim in a manner more forcible than words can delineate, through blanching locks or grizzled heads that they are aged and passing to decay. A very short trial will convince the most skeptical that it does eradicate the scalp diseases which rob the hair of its color and life.—Fort Scott (Kan.) Daily Monitor.
